

Congratulations to our Winners  
**Top Ten Innovators 2020**

**IN THIS ISSUE**

As we reflect on 2020, it was one of many unprecedented events and circumstances for all, both personally and professionally in one way or another. While being physically distant, we tried to remain connected, and so here we are to share some great stories that were created through sheer resilience and passion of our young Pakistani entrepreneurs and dedication of the Shell Tameer team to support them.

Much of the year was spent in trying to innovate old ways of working, assessing the changing entrepreneurial landscape and the host of new challenges it brought and evaluating how to best extend our support. We were able to redesign our implementation strategies to make things happen that initially seemed next to impossible.

We hope that the initiatives taken last year enable our young entrepreneurs excel in their endeavors. By going virtual with our programme, we have been able to increase its outreach and impact.

We wish you a prosperous, safe and healthy year ahead. Happy reading!
